Merl & Ed:

In the light of K.C. Geh's &  
Konrad's interesting & constructive  
memos on the Ellsberg draft\*,

I hope we can get a revised  
version completed at minimum ( $\approx$  30)  
incremental costs, and published  
very quickly. Dan ought really to be  
able to do this in 2 or 3 days  
(e.g. in accordance with the  
suggestions made on p. 4 of Killen's  
memo). Would you try to firm up a  
schedule on this with Dan, set an  
early date for completion, & let me  
know the outcome?

\* Both K.C. & Konrad ought to be  
thanked for the good jobs they did.
